

Clow Professional Superglas® Insulated Glassfibre Step

The Clow EN131 Professional Superglas® Insulated Glassfibre Step is the premier glassfibre step on the UK market today.

Fully conforming with the new *EN131 Professional Standard* this step is designed for robust industrial and trade use and offers a 150kg maximum load.

It's heavy duty construction, double riveted wide non-slip treads, robust stay locking system, large slip-resistant feet, reinforced bracing, non-conductive stiles and magnetic multi-tool top make it the ideal step for use within the electrical engineering trade.

The Clow Professional Superglas® GFIS step ladder is fitted with a rugged and durable "rubbing plate system" to prevent excessive wear of the stepladder hinge assembly.

The top two standing treads also feature an extra deep surface area for maximum comfort and safety.

- Strong GRP Channel Section Stiles
- Heavy Duty Reinforced Back Bars
- Double Riveted Aluminium Treads
- Deep Non-Slip Treads: 82 & 115mm
- Heavy Duty Non-Slip Safety Feet
- Conforming to EN131:Professional
- 150kg Maximum Load

Code	Treads	Open Height	Closed Height	Weight
AEPGFIS04	4	1.103m	1.230m	6.50kg
AEPGFIS05	5	1.380m	1.530m	8.05kg
AEPGFIS06	6	1.659m	1.830m	9.35kg
AEPGFIS08	8	2.216m	2.430m	12.55kg
AEPGFIS10	10	2.772m	3.030m	16.05kg
