Standard Timber Dual Section Extension Ladder to BS1129 Class 1

The Clow Standard Timber Extension Ladder is a dual section wooden extension ladder designed to meet all the basic requirements of BS 1129 Class 1 and offer a maximum load of 175kg.

With a push up operation this ladder offers a lightweight option in the Class 1 Timber Ladder range.

The ladder stiles are manufactured from carefully selected timbers and the rungs are turned from high quality straight grained ash.

The rungs are then tapered and glued into the ladder stiles to prevent moisture from adversely affecting the strength of the joint between the rungs and ladder stiles.

Larger sizes are available upon request, please contact us for further information.

Code	Closed Height	Extended Height	Rungs	Weight
ST08	2.44m (8')	4.27m (14')	8	16.4kg
ST10	3.05m (10')	5.49m (18')	10	20.5kg
ST12	3.66m (12')	6.70m (22')	12	24.5kg
ST14	4.27m (14')	7.92m (26')	14	28.6kg
ST16	4.88m (16')	8.84m (29')	16	32.7kg
