

Clow Metal Scissor Loft Ladder c/w Hatch Box

Designed and manufactured with high quality materials this loft ladder can be adapted to accommodate any floor to ceiling height of between 2.30m and 3.30m (7'6½" to 10'9").

The standard ladder (AELLMSKC) provides a floor to ceiling height of up to 2.70m.

This length can be easily extended up to a maximum of 3.30m by the addition of two more ladder sections (available to order separately – AELLMSKC-SECTION).

Supplied complete with it's own timber hatch box and full fitting instructions this ladder can be easily fitted by any competent DIY'er, handyman or carpenter.

No special maintenance is required and the specially designed rung sections can be added or removed to provide the optimum length and angle for each unique installation.
