

Clow Class 1 Industrial Heavy Duty Aluminium Step

The Clow heavy duty aluminium Builders Step is a robust and strong industrial product fully conforming with BS2037 Class 1 Specification.

Suitable for heavy duty and industrial use, this step offers a safe working load of 175kg.

The step features a GRP glassfibre reinforced blue top that doubles as a tool tray. Under the top are two metal plates that connect the front of the step to the rear giving greater safety, stopping the stiles from being able to separate if the top was damaged.

Further safety features are non slip treads, DOUBLE front rivets on every tread, full length box section rear frame and non-slip feet.

Code	Treads	Height In Use	Weight
AEABS03	3	0.75m (2'5")	2.8kg
AEABS04	4	1.00m (3'3")	4.3kg
AEABS05	5	1.25m (4'1")	5.8kg
AEABS06	6	1.50m (4'9")	7.3kg
AEABS08	8	2.00m (6'6")	9.1kg
AEABS10	10	2.50m (8'2")	11.9kg
AEABS12	12	3.00m (9'8")	14.3kg
