

Foldable Telescopic Step (FTS4)

The Foldable Telescopic Step offers three useful products in one ladder: this ladder can be used as a Extendable Straight Section Ladder, an Extendable Stairwell Ladder and as an Extendable A-Frame Ladder.

Conforming with EN131 this ladder supports a maximum static vertical load of 150kg.

With an aluminium construction this ladder features a heavy duty locking mechanism for maximum safety and extendable legs for maximum versatility. Slip resistant feet and a long horizontal bar offer extra stability. Folds flat for easy storage.
