

Clow Glassfibre Podium Platform

The Clow Glassfibre Podium Platform offers a fully insulated platform ideally suited for safe access to internal ceiling heights.

The key features include:

- Fully Insulated – Both the frame and the platform are manufactured from glassfibre ensuring the product is non-conductive.
- Folding Frame – Allows ease of transport and makes access into confined areas easier. Easily passes through standard doorways.
- Non-Slip Glassfibre Platform – Integral folding side stabilisers and integral front stabiliser wheel.
- Integral Guardrail and Gate Assembly – complete protection from falls.

Two sizes of Glassfibre Podium Platform are available – Medium (GPPM) and Large (GPPL).

Product	Overall Height	Height to Platform	Width of Frame	Weight
GPPM	1.88m	0.79m	0.70m	38.2kg
GPPL	2.10m	1.04m	0.70m	45.1kg

Clow glassfibre products are renowned for their quality, strength and durability.

Clow Group Ltd

The Clow Group has been manufacturing high quality glassfibre access equipment for over 40 years, during which time the Group has supplied many major utilities both in the UK and worldwide.
