

## Deluxe Aluminium Loft Ladder

The Deluxe Aluminium Loft Ladder is a robust, quality loft ladder constructed with aluminium alloy channel section stiles and flat wide corrugated non-slip treads to provide safe and secure access.

The treads themselves are 400mm wide and 90mm deep complete with 25mm nosing. The treads are fitted at a standard 254mm rise. All treads are serrated to provide a safe non-slip surface. This ladder supports up to 130kg per tread.

The Deluxe Loft Ladder is supplied complete with all the necessary fittings needed to install this ladder correctly - please note that this does not include the trap door cover. The loft ladder hand rail and operating pole are also included as standard. Additional Loft Ladder Handrails can also be purchased for this product.

Please find information below providing guidance on the required sizes for the Deluxe Loft Ladder installation. Please see overleaf for further details.
