

Clow EN131 Professional Aluminium Builders Step

The Clow AEPDABS Professional Aluminium Builders Step is an industrial grade step ladder fully conforming with the *EN131: Professional Standard* offering a safe working load of 150kg.

Constructed using C section aluminium stiles with extra wide extruded 85mm deep treads, double riveted for extra strength. The treads are serrated providing the user with a safe and secure foothold.

Rectangular box section rear legs complete with reinforcing cross bars provide a strong and robust frame.

The locking stays complete with joining bar provide even greater strength and the ability to easily close the step ladder.

- Non-Slip Safety Feet
- Double Riveted & Serrated Aluminium Treads
- Conforming with EN131:Professional Standard, 150kg Maximum Load

Code	Treads	Open Height	Closed Height	Weight
AEPDABS03	3	0.66m	0.75m	2.90kg
AEPDABS04	4	0.88m	0.99m	4.26kg
AEPDABS06	6	1.33m	1.47m	5.67kg
AEPDABS08	8	1.77m	1.95m	7.68kg
AEPDABS10	10	2.22m	2.43m	9.36kg
AEPDABS12	12	2.66m	2.90m	12.25kg
