## Clow Superglas™ EN131: Professional Insulated Platform Step

The Clow Superglas Platform Step is designed and manufactured using strong fibreglass stiles and non-slip aluminium treads.

The step's features a useful 360mm x 300mm aluminium platform, and due to their non-conductive stiles are fully insulated. The steps are compliant with European Standard EN131, and are rated to support a maximum load of 150kg.

The robust, lightweight, non-conductive platform step provides the perfect access solution for use within the electrical industry.

- Non-conductive Fibreglass Stiles
- Working Platform 360mm x 300mm
- Broad Aluminium Serrated Treads for a Secure Foothold
- Slip Resistant Feet
