## Clow Extra Wide GRP Platform Steps with Handrails

### EN131: Professional Superglas® AR Platform Step

The all new Clow Superglas® AR Step is a sturdy, durable "All Round" platform step offering safe 360° access from a strong supporting platform.

Wide integrated handrails, a wrap-around rear guardrail and gravity locking front guardrail means this step provide users with a safe and secure non-slip access platform ideal for wide range of tasks.

Insulated GRP stiles, rigid back bars, reinforced non-slip treads together with parallel steel locking stays and transport wheels make this step robust and manoeuvrable.

Available ex-stock in 3, 4, 5, 6, 7 and 8 tread sizes, these steps are supplied flat packed and complete with all required assembly tools.

Conforming with the new EN131 Professional standard this step safely supports a maximum load of 150kg.

**Note:** <sup>1</sup> when you count the number of treads on a step you should include the step top or top platform within the tread count.

**Note:** not all manufacturers treat tread counts or tread heights the same - when you compare platform steps compare the overall platform height not the number of treads as some manufacturers keep tread spacing short.
