

Clow Diamond Multi-Function Telescopic Ladder

The Diamond Multi-Function Telescopic Ladder is a multi-purpose professional ladder constructed from strong aluminium sections and featuring a secure stabiliser bar, slip resistant feet, easy locking hinges and robust “J” locking frames.

With multiple configurations the Diamond Multi-Function Ladder can be used as an Extendable Straight Section Ladder, (2.64m – 4.43m), an Extendable A-Frame Ladder, (1.27m – 2.12m), and as an off-set A-Frame Ladder for positioning on a step.

This ladder supports a maximum load of 150kg and is designed for professional use.

Compliant with European Standards...
