

Clow Aluminium Shelf Ladder

The Clow Aluminium Shelf Ladder is a single section ladder designed especially to provide safe and comfortable shelving access.

Built to Class 1 BS 2037, this ladder offers a maximum load in of 175kg.

Aluminium construction makes this ladder lightweight but extremely rigid allowing it to be used in demanding industrial environments such as factories, warehouses, storage facilities and shops.

- ◆ Pressure bar to support ladder
- ◆ Double riveted serrated treads
- ◆ Non slip rubber feet fitted
- ◆ Aluminium stays to the front and rear for increased strength

This ladder can be manufactured to exact customer specifications if required.

Code	Length	Treads
ASL6	1.52m (5'0")	6
ASL8	2.07m (6'8")	8
ASL10	2.56m (8'4")	10
ASL12	3.05m (10'0")	12
