Clow EN131 Aluminium Single Section Ladders

Clow EN131 Aluminium Light Trade Single Section Ladders are designed for the needs of the commercial and light trade building and construction industries.

These ladders are also highly recommended for heavy duty DIY use.

Produced at the Clow Group's West Midlands Ladder Factory, these ladders feature strong aluminium box section stiles designed with a special recess to protect the end of the rungs, are fitted with deep 'D' shaped rungs for comfort and safety and large angled PVC block safety feet for a secure footing.

Conforming to British European Standard EN131 this ladder safely supports a maximum load of 150kg.

Clow Aluminium EN 131 Single Section Ladder

Code	No of Rungs	Height	Weight
ENS2.0	7	1.92m (6'3")	3.6kg
ENS2.5	9	2.42m (7'11")	4.6kg
