Clow Handrail Posts

Clow Adjustable Handrail Posts are manufactured from tubular and solid bar aluminium, offering a versatile, cost effective and easy to assemble product suitable for use with any width of staging up to a maximum of 900mm.

Designed to fit 600mm stagings as standard the Adjustable Aluminium Handrail Posts can be extended fully to fit 2 x 450mm stagings.

No tools required to fit, the Handrail Posts simply clamp to the underside of stagings. In-built holders for toe-boards are included.

When estimating requirements for a handrail we recommend a maximum distance of 1.5m between the vertical handrail posts.
