Clow Ridge Saddle Ladder

The Ridge Saddle Ladder is an extremely popular ladder which is used as a safe and reliable component of roof restraint systems.

It provides a safe & secure anchor point for attaching a harness.

- ◆ Fits all angles of roofs above 25° degree pitch
- ◆ Overall folded dimensions 1.5m x 0.4m x 0.23
- ◆ Lightweight at only 18kg
- ◆ All points on the roof can be accessed

The Clow Saddle Ladder System is designed to be simple, flexible, cost effective and completely safe.

The system has the following advantages:

- ◆ Simple to use
- ◆ Completely safe/secure anchor point
- ◆ As it is versatile every part of the roof can be reached
- ◆ Can be taken from job to job, instead of installing anchors in every property

The ridge saddle ladder comprises of 2 x 5ft sections of aluminium ladder joined together by a locking hinge. Each section can open out and be locked to fit almost any roof pitch. An attachment point is fitted to each section end allowing access to the whole roof.
