

## Clow Wooden Trestles

Clow Timber Tradesman Trestles are built to conform with British Standard BS 1129 Class 1.

Rigidity is increased as the trestle is securely bolted together using screwed and nutted tie rods. Galvanised steel hinges are bolted onto the sides and the trestle is fitted with nylon check ropes to provide secure and optimum stability.

The bars are fixed at 18" centres alternating on each side of the trestle to give a regular 9" rise for scaffolding.

The image here shows a set of Clow Timber Trestles together with a Clow Timber Staging.

- Designed for 600mm width stagings.
- Available in four different sizes – 6', 8', 10' and 12'.
- Other sizes are available upon request.

Code	Description	Height	Weight
TT6	Clow 6' Trestle	1.83m (6')	17.4kg
TT8	Clow 8' Trestle	2.44m (8')	20.3kg
TT10	Clow 10' Trestle	3.05m (10')	23.2kg
TT12	Clow 12' Trestle	3.66m (12')	29.0kg
