

Stairwell Access Ladder

Designed and manufactured with high quality materials the Stairwell Ladder offers an ideal solution for safe access across staircases and stairwells.

With four individually adjustable stiles, the stile extensions bars can be utilised to accommodate up to 4 different staircase levels. (A maximum of three extension bars can be extended at any one time).

The strong but lightweight extruded aluminium stiles with a substantial 65 x 20mm profile offer a high degree of strength and stability.

TÜV-tested

DIN-EN 131-1: 2016

DIN-EN 131-2: 2010 + A1: 2017

DIN EN 131-3: 2007
